Professor Joshua Lederberg  
Department of Genetics  
The University of Wisconsin  
Madison 6, Wisconsin

Dear Joshua:

I was very pleased to learn of your well-deserved appointment at Wisconsin. Now that we are practically neighbors, we shall be able to get together before too long.

I have inquired of Miss Montgomery regarding the iso-maltose. She has none at present but is preparing some that should be ready within a month. She promises to send some to you as soon as it is available. The amount will probably not exceed 10 mg. as she tells me it is very difficult to obtain.

It is always nice to hear from you. Write again soon.

Sincerely yours,

*Frank H. Stodola*
